

County Reinsurance, Limited e-Newsletter Quarterly News & Updates

Q3 Issue 3

Happy Summer! As we embrace the warmth and vibrancy of the season, we are thrilled to bring you the latest edition of our Quarterly e-Newsletter, filled with exciting updates and invaluable resources tailored just for you.

What's New at CRL

CRL Member Portal

We are excited to announce the official launch of our new Secure Member Portal! This platform is designed to connect you to valuable resources and information, making it easier to stay informed and engaged.

While some features are still under development, the portal is now live and ready for you to explore. We encourage you to register today to take advantage of the tools and updates available to you.

How to Register:

1. Access the Member Portal Here: [Member Registration Page](#)
2. Register by creating a username, a strong password and supplying additional detail as requested.
3. After registering, you will receive an email from: wordpress@countyreinsurance.org (via fw-mail.com). This email confirms your registration request, your username and password.
4. Your registration request is reviewed and approved by CRL Member Services within 48 hours. You will receive a confirmation email stating your registration is approved.
5. You can then log in using the credentials provided in your initial registration email.

Note: If you do not receive the message from WordPress, be sure to check your spam or quarantine folders.

If you encounter any issues during the process, please do not hesitate to reach out to us at:

CRL.MemberServices@CountyRe.org

Introducing the "Member Connect" Center

We are excited to announce the launch of our new Member Connect section in the newsletter! This dedicated space aims to foster collaboration and knowledge sharing among our Members. Here, you can:

- **Share Training Opportunities:** Highlight upcoming workshops, webinars, and courses that could benefit fellow Members.
- **Lessons Learned:** Discuss valuable insights and experiences from recent projects or initiatives.
- **Tools Developed:** Showcase innovative tools and resources that can be utilized across different pools.
- **Request Support:** Post requests for assistance, partnerships, or advice on various topics.

We are looking for enthusiastic Members who would like to volunteer to share their recent initiatives or offer support. If you are interested in participating, please email us at CRL.MemberServices@CountyRe.org. Let's connect, learn, and grow together!

What's New in Underwriting

Reminders: Workers' Compensation and Liability Exposure Audit and Property True-Up

With the commencement of our July 1, 2025, renewal, we will now be moving into the Liability and Workers' Compensation Exposure Audits, Property Policy Audit, and the Property True-Up process. Below are items to keep in mind. Thank you in advance for your partnership.

advance for your partnership.

Workers' Compensation and Liability Exposure Audit:

- CRL conducts an audit of all recently expired Workers' Compensation and Liability policies. Please be on the lookout for specific information needed to complete the audits as the timelines and information will vary depending on the type of policy and expiration date.

Property True-Up:

- Members are to submit current Schedule of Value (SOV) information to **CRL.Underwriting@Countyre.org** within 30 days of the effective date of the Members most recent policy year. The true-up process brings SOVs and property data current within the July 1, 2025, policy.

Property Audit:

- Members are to submit a SOV reflecting all additions and deletions made during the prior policy period, July 1, 2024- July 1, 2025, within 30 days of the expiration of the most recent policy year. The property audit process reconciles SOV changes made during the prior policy period. This includes additions and deletions.

Resources for Our Members

HSB Jurisdictional Inspections and Engineering Surveys for Property Members

Did You Know?

HSB provides essential services that ensure the safety and compliance of our properties. Here are the key services HSB provides:

Jurisdictional Inspections- The purpose of these visits is to conduct inspections of equipment as required by local jurisdictional authority. They are done to ensure that each member is code compliant based on current state regulations. Marsh provides the Statement of Values to HSB, and they advise what locations have objects that need to be inspected each year based on requirements by each state.

New Code Requirements for Mississippi and Alabama

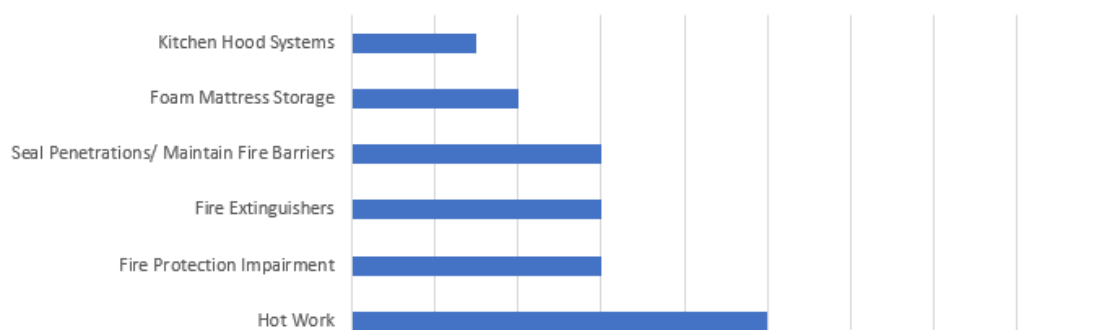

- Expect increases in object counts due to the new code requirements being enforced. This includes Hot Water Supply Boilers of 5 gallons or greater located in buildings owned or under control of a public entity. These new objects should all have 24-month inspection frequencies.

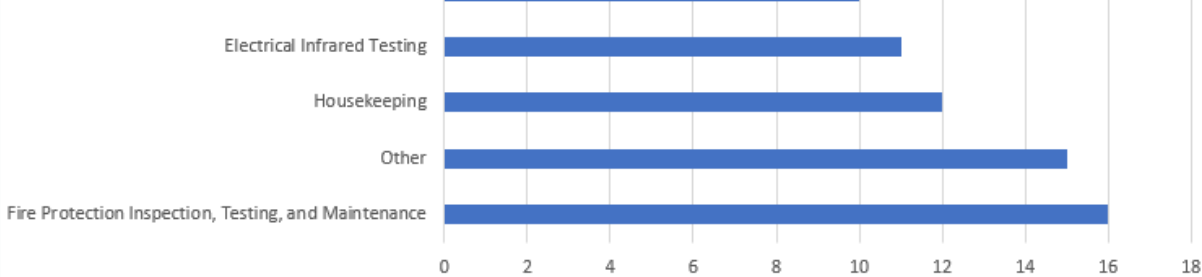

Property Engineering Surveys- This is necessary for Insurance Marketing. Surveys confirm construction, occupancy, risk protection measures, and management standards. Any special hazards present will be noted (i.e., Fire Risk, Sprinkler System Adequacy, Housekeeping Issues, and Human Element documentation like Hot Work Permits / Impairment tags). The locations are decided between the reinsurance panel, Marsh, and CRL. HSB will schedule in-person engineering visits in coordination with CRL.

HSB Engineering Inspection Report Trends: As of June 2025, HSB has provided a comprehensive set of 89 recommendations aimed at enhancing risk management practices. Among these, 46 were classified as priority recommendations, while 43 were advisory notices. To facilitate your understanding and implementation of these recommendations, we have included a chart outlining the various categories of these suggestions.

Additionally, we have attached valuable resources, including a hot work program template and permit, a fire protection impairment permit, and the NFPA Hot Work reference guide, which we believe will be instrumental in your efforts to ensure safety compliance. We encourage you to take full advantage of these resources as you navigate the path toward improved safety and risk management.

Storm Season: Essential Resources for Insurance Property Adjusters

As storm season approaches, insurance property adjusters play a critical role in assessing damage and helping clients recover. To support you in this vital work, please find the resources below.

Storm Prediction Center

[The Storm Prediction Center \(SPC\)](#) is an essential tool for tracking severe weather. The SPC provides real-time forecasts, warnings, and detailed information about potential storm threats. By staying connected with the SPC, you can anticipate storm impacts and prepare for efficient damage assessments.

Guy Carpenter CAT Resource Center

The Guy Carpenter CAT Resource Center provides:

- **Live Event Updates:** Stay informed with real-time information during natural catastrophes.
- **Post-Event Analysis:** Access detailed reports and analysis following major events.
- **Seasonal Outlooks:** Prepare for upcoming storm seasons with expert forecasts.
- **Thought Leadership:** Gain insights from periodic thought leadership articles on natural catastrophes.

September 9, 2025 | 11:00 AM EST

This session is open to all CRL Members and the County Members.

Thank You for Making the Law Enforcement Liability Symposium a Success!

We extend our heartfelt thanks to everyone who attended the Law Enforcement Liability Symposium. Your presence and participation helped make this event a tremendous success.

A special thank you goes out to our outstanding presenters, whose expertise and insights provided attendees with valuable information on critical issues. The sessions were not only informative but also sparked meaningful discussions and connections.

We're grateful for the opportunity to bring together professionals from across the field for a few days of learning, collaboration, and networking. The energy and engagement throughout the symposium were truly inspiring.

We look forward to seeing you at future events!
