IT & Management: Cyber Risk Profile & Essential Controls

Welcome to the second installment of the eRisk Cyber Campaign. As a reminder, the campaign comprises of ten monthly emails that are being sent directly to the Member Designated Representative and the assigned key contact for eRiskHub. If you would like to identify a key contact person for eRiskHub please send the contact information directly to crl.memberservices@countyre.org.

We encourage you to proactively engage your county members to participate in these activities. Let's harness the resources available through CRL to empower your efforts, ensuring that our counties are equipped to manage risks effectively and confidently. Your active participation is key to our collective success!

eRiskHub®

Is Your Organization Secure? Assess Your Cyber Risk Now

Your organization experiences a minor security incident, revealing that several employee accounts do not have Multi-Factor Authentication (MFA) enabled. If Endpoint Detection and Response (EDR) tools and MFA had been fully deployed, the incident could have been avoided.

Now that employees are strengthening their passwords, it's time for IT & Management to take a deeper look at crucial security controls.

- Start the **Cyber Risk Profile** to identify areas for improvement. This questionnaire requires answers from a technical resource who has knowledge of your security controls and policies.
- Ensure **Multi-Factor Authentication (MFA)** is enabled on ALL employee devices.
- Deploy **Endpoint Detection and Response (EDR)** tools to detect and stop threats.
- If you lack MFA and/or EDR on all devices, please document obstacles

impending full deployment. This will facilitate a focused discussion with your team.

The entire Cyber Resilience series is available today. To learn more and/or complete these actions, log into the eRiskHub to visit the Cyber Resilience page.

Please contact crl.memberservices@countyre.org with general questions regarding the campaign. For technical questions concerning the eRiskHub portal, contact Net Diligence at eriskhub@netdiligence.com.
